Post ASH CML update from the SPIRIT Team

Friday 17 December, 2.00 – 3.30pm

INFORMATION

Registration

This is an online meeting. It would be helpful if people could register in advance of the meeting to help us plan the content for those attending and to help manage the logistics of numbers joining. You can pre-register by clicking [here](#), or via the Registration item in the News and Events section of the SPIRIT 2 website: (<http://www.spirit-cml.org/spirit-2-home/news-and-events.aspx>). Due to travel problems related to the weather, there will NOT be an opportunity to join the meeting in person, and this meeting will be held online only.

Joining instructions

Webex link (for slides)

Slides for the meeting will be shared via a webex link [here](#) or by going to <https://spirit.webex.com/spirit>. If requested you should enter your name and email address.

The password is Welcome123.

We would recommend that you test that you can join a webex meeting in advance, so that your IT department can deal with any local technical difficulties. You can join a 'test' meeting in advance at <http://www.webex.com/lp/jointest/>.

If you have problems accessing the webex, you can contact the webex technical support line directly on 0800 389 9772 or 0161 250 0706

Teleconference (for sound)

To hear the presentation you need to dial into the teleconference by phone. **Please dial 0844 473 73 73.** The **PIN is 475616**. We would ask that you dial in using a landline rather than mobile phone as this will avoid interference / line disconnections during the call. Please could you also mute your phone during the meeting to keep distracting noise to a minimum. You can do this through the teleconference system by pressing #6. If you wish to speak, press #6 again to unmute. If you have problems with the teleconference please call the SPIRIT 2 Trial Office (Wendy Banks on 0191 282 0904).

Certificate of Attendance

As we cannot take a signed register at an online event, if you would like a certificate of attendance please email Caroline Hodgson (c.hodgson@ncl.ac.uk) following the meeting to confirm you attended and to request a certificate. Following this we will then email pdf certificates. Certificates can be used for evidence for CPD points and as evidence of ongoing training and education by filing in Investigator Site Files (training section 1.8).
